## DOCUMENTATION

### PEPPER-HOT

#### Gerry

##### **Hot pepper - Strong Pungency (Hybrid F1)**

Fruit is large, straight and turns from light green to red when matures.

Can be picked young (green) or ripe (red) to meet different needs.

Fruit is 16 cm long, 2 cm wide and weighs 30-40 gr. It has thick flesh - 3 mm, with **strong pungency**.

Plants are medium tall, very early in maturity - can be harvested 85 days from transplant, slightly spreading with concentrated harvest. Resistant to CMV.

#### Gerald
