### WATERMELON - SEEDED

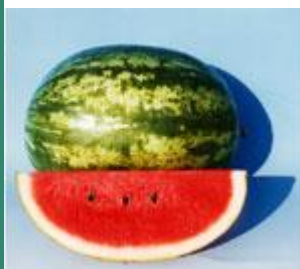

#### Ercan

##### Watermelon - Seeded (hybrid F1)

Super vigorous variety, productive, tolerant to heat, with medium to early dependable fruit set. The short oblong fruit is durable and strong, weighs 10-12 kg. Resist cracking, which makes it suitable for shipping. Flash is crisp, firm, juicy and sweet. Attractive green rind, with broad dark blue stripes.

#### Erol

##### Watermelon - Seeded (hybrid F1)

Plants are early medium, very vigorous, productive, stable and heat tolerant. Fruit is short oblong. Weighs 7-10 kg, durable, strong and is more resistant to cracking which makes it good for shipping. Fruit is green rind decorated with broad dark blue stripes. The flesh is firm, crisp, sweet and juicy.

#### Erin

##### Watermelon - Seeded (hybrid F1)

Super vigorous variety, productive, tolerant to heat. The globe shaped fruit is durable and strong, weighs 7-10 kg. Resist cracking, which makes it suitable for shipping. Flash is crisp, firm, juicy and sweet. Attractive green rind, with broad dark blue stripes.

#### Extreme

##### Watermelon - Seeded (hybrid F1) **Crimson type**

Plants are vigorous, medium early and productive. Fruit is oblong shaped, 10-15 kg and very attractive. Rind is beautiful with stripes, thin but tough, making the fruit good for storage and shipment. Flesh is bright red, tender, juicy and sweet.
